

MARYLAND HISTORICAL TRUST CONTINUATION SHEET  
U.S. 301 SOUTH CORRIDOR TRANSPORTATION STUDY

Property Name: James Christmas House  
Survey No.: P.G.:82A-8 (PACS A121)

Property Address 7201 Crain Highway, Upper Marlboro vicinity, Prince George's County  
Owner Name/Address Richard and Marian Bolton / 7201 Crain Highway, Upper Marlboro, Maryland 20772  
Year Built 1897

**Description:**

The James Christmas House was previously surveyed by the Maryland-National Capital Park and Planning Commission in 1974 and by the Prince George's County Historic Preservation Commission in 1985. There has been no change to the property since the prior survey. The exterior of the house is currently being painted. On the property is a trailer and barn. The trailer is located to the west of the house and is covered with vertical wood siding. The barn is in a deteriorated condition. Located at the west end of the property, the barn has a front-gable metal-covered roof, vertical wood siding and is covered by vegetation.

**National Register Evaluation:**

The James Christmas House is eligible for the National Register of Historic Places under Criterion C, as a good example of a dwelling with Queen Anne features. The house is a visual landmark along Crain Highway and possesses character-defining features such as a hipped roof with multiple gables and an asymmetrical wrap-around porch with chamfered posts. The original windows, porch detail and tower possess excellent integrity of form and materials.

The property is not eligible under Criterion A, as research conducted indicates no association with any historic events or trends significant in the development of national, state or local history. Historic research indicates that the property has no association with persons who have made specific contributions to history, and therefore, it does not meet Criterion B. Finally, the structure has no known potential to yield important information, and therefore, is not eligible under Criterion D.

**Verbal Boundary Description and Justification:**

The National Register boundaries of the James Christmas House follow the current property lines of its tax parcel (Tax Map 110, Lot/Block #P5). This 4.08 hectare (10.08 acre) parcel is bounded on the north and west by adjacent tax parcels, on the south by Crain Highway and on the east by Old Crain Highway. The boundary includes the house, a trailer, barn and circular driveway. According to deed research, the property was originally part of a 62.32 hectare (154 acre) parcel which was reduced in acreage to 4.48 hectares (11.07 acres) in 1955. It is approximately the same size today. The boundary includes the contributing house and barn and the non-contributing trailer.

**MHT CONCURRENCE:**

PRINCE GEORGE'S COUNTY  
HISTORIC SITE SUMMARY SHEET

Survey #: P.G. #82A-8 Building Date: ca. 1897  
Building Name: James Christmas House  
Location: 7201 Crain Highway, Upper Marlboro, Maryland

Private/Residence/Occupied/Good/Inaccessible

Description:

The James Christmas house is a large (ca. 40' by 44') Victorian two-and-one-half-story frame dwelling house with Queen Anne decorative elements. It is prominently located on high ground northwest of and overlooking the intersection of Old Crain Highway and U.S. Route 301, south of Upper Marlboro. The principal three-bay facade faces roughly south, sheltered by a one-story porch. Entrance into the principal (south) facade is in the central bay, through a handsome set of seven-panel double doors surmounted by a two-pane transom and crown molding. The first bay of this south facade is filled by a two-story semi-octagonal projecting bay; the third bay is filled with a two-story rectangular projecting bay. The west elevation is also highlighted by a central set of double-doors; it has single-pane sidelights. South of the central doorway is a three-story semi-octagonal tower, decorated at third level with alternating courses of rectangular shingles and hexagonal shingles; it has a pyramidal roof. The building has a hipped roof; built into the west, south and east planes of the roof at third level are pedimented dormers. There are four tall corbelled brick chimneys, located asymmetrically in the east, north, and west planes of the roof. The house is covered with German siding painted white. The roof is covered with green asphalt shingles; the foundations are of brick. There is a twentieth century barn at the rear of the property.

Significance:

The Christmas House is a very fine and prominent example of late Victorian rural domestic architecture with Queen Anne details. It was built by James M. Christmas, ca. 1897, on part of a tract of land called Greenland which had earlier been the home farm of the Leonard Taylor family. James Miller Christmas (1870-1939) came to Maryland ca. 1890, and began a sawmill operation and lumber business in the Croom area. In 1892 he purchased 154 acres of Greenland and in 1895 married Mary Margaret Duvall of Trumps Hill near Croom. Within two years of his marriage he completed construction of his handsome and imposing house at the highest point near the public road into Upper Marlboro. Christmas sold his house and farm in 1914, since which time the house has had several owners. For a short period after World War II, it served as a small private dining room, operated by the owner/resident. The house is unusual for its large size, and exhibits fine details especially in the treatment of doors and windows, bay and tower. It is a prominent landmark on the highway south of Marlboro.

Prepare both a summary paragraph and a general description of the resource and its various elements as it exists today.

The James Christmas house is a large (ca. 40' by 44') Victorian two-and-one-half-story frame dwelling house with Queen Anne decorative elements. It is prominently located on high ground northwest of and overlooking the intersection of Old Crain Highway and U.S. Route 301, south of Upper Marlboro. The principal three-bay facade faces roughly south, towards Route 301. It is sheltered by a one-story porch, resting on brick piers and supported by chamfered posts, which wraps around three-quarters of the east facade.

Entrance into the principal (south) facade is in the central bay, through a handsome set of seven-panel double doors surmounted by a two-pane transom and crown molding. The first bay of this south facade is filled by a two-story semi-oxagonal projecting bay; it has narrow 1/1 windows on the angled sides, a 2/2 window on the front, and a pyramidal roof. The third bay of the south facade is filled with a two-story rectangular projecting bay, with 2/2 windows and a gable roof.

Like the main facade, the west elevation is also highlighted by a central set of double-doors; it has single-pane sidelights. South of the central doorway is a three-story semi-octagonal tower, with narrow 1/1 windows in the angled sides and 2/2 windows in the front. This tower is decorated at third level with alternating courses of rectangular shingles and hexagonal shingles; it has a pyramidal roof.

The building has a hipped roof; built into the west, south and east planes of the roof at third level are pedimented dormers with double 2/2 windows. All three dormers are embellished with a decorative vertical groove between the windows (as are all the double windows in the house); the south dormer is decorated with hexagonal shingles in the pediment. There are four tall corbelled brick chimneys, located asymmetrically in the east, north, and west planes of the roof.

Prepare both a summary paragraph of significance and a general statement of history and support.

The Christmas House is a very fine and prominent example of late Victorian rural domestic architecture with Queen Anne details. It was built by James M. Christmas, ca. 1897, on part of a tract of land called Greenland which had earlier been the home farm of the Leonard Taylor family.<sup>1</sup>

James Miller Christmas (1870-1939) came to Maryland ca. 1890, and began a sawmill operation and lumber business in the Croom area. In 1892 he purchased 154 acres of Greenland and in 1895 married Mary Margaret Duvall of Trumps Hill near Croom. Within two years of his marriage he completed construction of his handsome and imposing house at the highest point near the public road into Upper Marlboro.<sup>2</sup>

Christmas sold his house and farm in 1914, since which time the house has had several owners. For a short period after World War II, it served as a small private dining room, operated by the owner/resident. The land was divided in the 1950's; in 1962 the present owners purchased 11 acres including the house and two barns, one of which has since been destroyed, and have accomplished some restoration work on the house.<sup>3</sup>

The Christmas house is unusual for its large size, and exhibits fine details especially in the treatment of doors and windows, bay and tower. It is a prominent landmark on the highway south of Marlboro.

## 7 (Continued)

The house is covered with German siding painted white. All windows (excepting the side windows of the semi-octagonal bay and tower) are 2/2; all have plain board surrounds surmounted by a crown molding with cyma recta profile. The roof of the house, which originally was covered with wooden shingles, is now covered with new green asphalt shingles. The foundations are of brick.

The house originally had no basement, but rested on a heavy hand-hewn sill, probably reused material. A small basement area has been dug out under the north central area of the house to house the mechanical plant; from this cellar space are visible the circular-sawn joists which support the first story floorboards.

The interior is in the plan of a cross, with two wide (ca. 15 feet) hallways crossing in the center of the house. The living space is made up of four corner rooms on first and second stories. There is a formal two-flight staircase in the west side hallway.

A short distance to the north of the house is a well with a new brick superstructure and canopy roof. At the north edge of the property, ca. 400 feet to the rear of the house, is a twentieth century tobacco barn. An older barn, located closer to the house, has been removed.
